

**Hyogo Prefectural
Mt. Rokko Nature Conservation Center &
Mt. Rokko Guide House**

The Hyogo Prefectural Mt. Rokko Nature Conservation Center in the Setonaikai National Park was established as a place where visitors can learn about the plants and animals of the mountain through photographic displays and specimens. It also serves as a study and rest area, and as a center to promote nature conservation and contact with nature, offering park information and pamphlets. The Mt. Rokko Guide House was established in April 2005 as an information center.
